---

### Profile

---

I am a passionate and motivated aspiring web developer, actively expanding my knowledge and skills in JavaScript, HTML, CSS, Node.js, and React. My coursework has equipped me with a strong foundation in web development, including project experience and collaborative work. I am dedicated to continuous learning and actively engage in coding challenges and career development activities. My goal is to contribute effectively as a full stack web developer and make a positive impact in dynamic teams and projects.

---

---

### Projects

---

#### 1. Lotide

*Lotide is a clone of the lodash JavaScript library, created to practice the development of various types of functions using JavaScript.*

Key Skills: JavaScript function creation, JS library cloning.

## 2. Snake

*Snake is a video game concept where the player maneuvers a dot and grows it by 'eating' pieces of food.*

Key Skills: Game development, user interaction

## 3. TinyApp

*TinyApp is a full-stack web app built with Node.js and Express.js that allows users to shorten long URLs, similar to bit.ly.*

Key Skills: Full-stack development, web app architecture, URL shortening.

## 4. Tweeter

*Tweeter is a Single Page App (SPA) built with HTML, CSS, JavaScript, jQuery, and AJAX.*

Key Skills: SPA development, front-end technologies, real-time updates.

## 5. Lighthouse BnB

*Lighthouse BnB focuses on database development. Build back-end queries that allow users to search for accommodations in an online travel app. They connect to a PostgreSQL database using Node's postgres library and write queries that deliver the right data to the front end.*

Database queries, PostgreSQL, Node.js, data retrieval.

## 6. PhotoLabs

*PhotoLabs is a React-based single-page application (SPA) that allows users to view photos in different contexts.*

Key Skills: React, SPA development, photo viewing.

---

## Professional Experience

---

### Web Editor wordpress

09/2018 – 02/2020

*Manitoba Mutts Dog Rescue*
